IEE WIRING REGULATIONS FULL (City & Guilds 2382-10) 17th Edition (BS7671:2008)

COURSE DETAILS

Course Aim
The IEE Regulations course will provide a detailed exploration of the Regulations, concentrating on their practical application on site. It is ideal preparation for the City & Guilds 2382-10 Examination.

Who would benefit?
The course is aimed at electrical personnel who design, install, inspect & test and maintain wiring systems. The course is intended for persons who are not familiar with the 17th Edition of the Regulations (BS7671) or may have studied the Regulations some time ago.

Course Content
The course consists of the following training modules:

- **Induction**. An introduction to the course.
- **PART ONE - Scope, Object and Fundamental Requirements for Safety.** Who are the Regulations for and what are they meant to do.
- **PART TWO - Definitions**. Explanation of the terminology used in the Regulations.
- **PART THREE - Assessment of General Characteristics**. Surveying the site and equipment to be installed.
- **PART FOUR - Protection for Safety.** Checking the installation for safety.
- **PART FIVE - Selection and Erection**. Choosing the right equipment for the job.
- **PART SIX - Inspection & Testing**. Is the installation safe to use?
- **PART – SEVEN - Special Locations**. Areas where particular care is required.
- **APPENDICES –** Interpreting the graphs and tables.
- **EXAMINATION -** Have you understood?.

Examination
The examination is a 2 hour, 60 question, computerised, open book, multiple-choice examination (GOLA).

Course Duration and Location
This 3 day course is available on-site, at training centres or other suitable venues.

Certification
Successful candidates are awarded a City and Guilds 2382-10 certificate.

IEE WIRING REGULATIONS FULL
(City & Guilds 2382-10)
17th Edition (BS7671:2008)
