IEE WIRING REGULATIONS UPDATE (City & Guilds 2382-20) 17th Edition (BS7671:2008)

COURSE DETAILS

Course Aim

The IEE Regulations course will provide an explanation of the major changes to the Regulations from the 16th Edition (BS7671:2001) to the 17th Edition BS7671:2008 and its amendments.

Who would benefit?

The course is aimed at electrical personnel who design, install, inspect & test and maintain wiring systems. Persons attending MUST have at least one of the following qualifications:-

- **C&G 2381 (issued after June 2001)**
- **C&G 2330-07 (LIII Certificate in installation)**
- **C&G 2330-08 (LIII Certificate in maintenance)**
- **C&G 2360 Part II (issued after Jan 2004)**

Course Content

The course consists of the following training modules:

- **Induction**. An introduction to the course.
- **PART ONE - Scope, Object and Fundamental Requirements for Safety.** Who are the Regulations for and what are they meant to do.
- **PART TWO - Definitions**. Explanation of the terminology used in the Regulations.
- **PART THREE - Assessment of General Characteristics**. Surveying the site and equipment to be installed.
- **PART FOUR - Protection for Safety.** Checking the installation for safety.
- **PART FIVE - Selection and Erection**. Choosing the right equipment for the job.
- **PART SIX - Inspection & Testing**. Is the installation safe to use?
- **PART – SEVEN - Special Locations**. Areas where particular care is required.
- **APPENDICES –** Interpreting the graphs and tables.
- **EXAMINATION -** Have you understood the changes?.

Examination

The examination is a 1 hour, 30 question, computerised, open book, multiple-choice examination (GOLA).

Course Duration and Location

This 1 day course is available on-site, at training centres or other suitable venues.

Certification

Successful candidates are awarded a City and Guilds 2382-20 certificate.
