Children Handling and Risk Assessment Key Trainer's Certificate

Service First

EDGE Services are one of the leading purveyors of health & safety training in the UK today. We are committed to developing delegates' knowledge skills and confidence through professional, proven courses that have a direct impact on performance.

Course Duration

Four Days

Public Training Courses

£840.00+VAT per delegate - London

£720.00+VAT per delegate - all other locations

Forthcoming dates in Brighton and Manchester.

In House Training Courses

Available in-house across the UK.

£3700+VAT for up to 10 delegates

Please see website or telephone EDGE Services for further details.

Course Overview

This course will provide delegates with the knowledge, skills and confidence to train others in the moving and handling of children/young adults and in the conducting of manual handling risk assessments.

Who Will Benefit?

This course is for delegates with a responsibility for health & safety and welfare of carers and children/young adults with regards to moving and handling.

Assessment & Certification

Course assessment comprises:

- a one hour 'open-book' test to determine delegates' theoretical understanding of the course content;
- delivery of a group mini-training session in order to assess teaching skills and organisation, and delivery of appropriate course content;
- a practical skills assessment, which takes place continuously throughout the course.

Upon successful completion of the course, delegates will receive a certificate of achievement, valid for two years, from EDGE Services.

Course Aims And Intended Learning Outcomes

By the end of the course delegates shall:

- demonstrate a sound knowledge of legislation which affects them, their job, their employers and employees;
- understand their vulnerability to injury when undertaking manual handling tasks;
- understand the workings of the spine and how to reduce the risks of spinal injury;
- demonstrate an appreciation of the principles of biomechanics;
- demonstrate an appreciation of ergonomics;
- demonstrate a sound knowledge of risk assessment;
- demonstrate a sound knowledge of 'controversial techniques';
- demonstrate a sound knowledge of up-to-date practical skills in moving handling children/young adults in a care/education setting;
- demonstrate the skills and confidence to convey manual handling knowledge and skills to others.

Post-Training Support

This unique service provides invaluable support to EDGE delegates after the course has finished. Our helpful trainers are available to answer any queries delegates may have once they return to work.
