Overview

FCP 101 - An introduction to Final Cut Pro

Course Code

FCP 101

Course Details

Teaches basic editing function while familiarizing students with the basic user interface.

This three-day, hands-on course introduces students to the primary feature set and basic interface of Final Cut Pro. In this course you learn to perform basic editing functions while familiarizing yourself with the user interface. Topics include basic setup, adjusting and customizing preferences and settings, capturing video and audio, various editing and trimming techniques, Ripple, Roll, Slip and Slide tools, audio editing and audio creation, finishing and final output.

Who should attend

This class is designed for anyone looking to edit professional-quality video with Final Cut Pro and who prefers hands-on and interactive instruction to best explore its functionality. Also desirable: an understanding of Mac OS X and basic computer navigation.

What you will learn

Working with the Browser and Bins
Marking clips, creating insert and overwrite edits and drag-and-drop editing
Trimming edit points, using Ripple, Roll and Extend edits and the Slip and Slide tools
Applying filters and changing Motion properties.
Audio editing and audio creation
Finishing and final output

Pre-requisites

Basic knowledge of Mac OS X
Basic knowledge of editing terminology is recommended
