People Handling including Hoists

edify training
Health & Protection

Course Number
SC0202

Validity
1 Year

Duration
1/2 or 1 Day (dependant upon delivery method)

Formal Assessment
No

This course is for staff who move or aid the movement of the service users for whom they care. The training will cover all aspects of correct & safe people handling including lifting aids and hoists. Practical instruction will be possible when the training is delivered on-site, allowing use of the actual equipment that the delegates will be working with.
