

Course Number
SC0206 / SC0206.1

Validity
1 Year

Duration
1/2 Day

Formal Assessment
No

“

This course has been written to take account of the special needs of the health and care sector and will provide delegates with a solid grounding in basic fire safety.

”

Fire can be the scariest of dangers to face and associated smoke can be a silent killer. However, fire is also fundamental to our every day life to keep us warm and cook our food. In health and care settings, fire safety awareness is critically important since service users often have impaired function making them potentially more prone to cause fire or come to harm from its effects.

Introduction

- Introductions
- Course overview

Course Content

- Relevant legislation
