

Natural Beauty Training Academy

SUTTON COLDFEILD

ABOUT US

Welcome to NBTA – the specialist beauty training service available across the UK and worldwide.

The NBTA is a modern, established company and has an excellent reputation in the beauty industry for its specialist intensive training programs.

We are totally committed to putting standards first and for this reason we do not accept more than 4 students per session. This ensures that a professional standard has been achieved in a short time and the atmosphere during the training is relaxed and friendly.

Most of our students have no previous experience in beauty therapy. Usually they are merely interested in the subject and enjoy the treatments themselves. However, many existing therapists have also attended our courses, enabling them to offer a more extensive selection of treatments to their established client base.

A career as a beauty therapist allows you to earn an income doing something you enjoy and the opportunity to open your own business.

Students travel a considerable distance to train with us due to our growing reputation across the UK. However, we are able to travel to your premise to suit your needs

During the course, emphasis is placed on practical work in small group sessions, where each student receives a great deal of individual attention.

Students are overwhelmed at how quickly they are able to learn new treatments and how confident and competent they feel after just a few days of training with us.

Following successful completion of a course you will be awarded the NBTA diploma that is accredited by the Guild of Professional Beauty Therapists, professional Direct and VTCT. You can then set up your own business working from home, a salon or as a mobile therapist.

Help, support and advice are always available following training and we are always pleased to hear from past students.

As we teach in small groups of two students we have a 100 percent pass rate. In the unlikely event of the students or the tutor feeling extra practice is required, this will be provided free of charge.

Online learning

All course materials will be emailed to learner after enrollment.

What support is available to me whilst doing the course?

All NBTA courses have access to integrated email support from fully qualified therapists and tutors. Pam Daman course tutor
Course support and guidance is given throughout the course. All materials are posted to learner after enrollment form has been completed.

Following each course module you will take an online examination which requires a pass rate of 70%.

If you fail a module you have the ability to re-take the examination twice. If you fail the module you will be contacted by the tutor who will offer support before making a final attempt.

You will receive a NBTA Diploma in chosen subjects which will be POSTED / PDF MAILED to you on successful completion of the course.

DURATION OF COURSE

The time it takes to complete the course will depend on how quickly you learn as an individual, and also on the number of hours per day you spend on it. Most students are able to complete the course within approximately 10/20 hours of study.

Requirements needed

Email address and course manual will be posted out or emailed to you

Parvinder Daman, the owner and director of NBTA, is an expert in essential day-to-day beauty treatments and is a level 4 qualified beauty lecturer and a qualified beauty assessor. She has been working in the beauty industry for over 20 years

Courses

Our courses begin with a short presentation to introduce you to the subject. This is carried out in an informal environment and students can make notes and ask questions.

Qualifications

NBTA Diplomas Level 2, 3 levels 4 also VTCT Courses to suit individual requirements depending on student demand. You are required to pay registration fee / course materials and certification Fee

Insurance

Guild of professional Beauty Therapists/ and Professional Direct is happy to offer insurance and membership to students at a very reasonable rate following the NBTA Diploma being awarded.

Being a member of such an organisation ensures that you receive professional media quarterly to keep you in touch with new products and inform you of beauty exhibitions.

What we need

Well ventilated room with good lighting

Plug sockets in the room

Our aim is to provide a professional service to all your employees

Positive affirmation

Creating a culture that values individual team members is a key aspect of well-being. Encouraging managers, leaders and co-workers to recognise the efforts of staff can impact hugely on motivation, helping them to feel appreciated and satisfied in their roles.

Communication

Good communication maintains strong working relationships and is so important to help employees operate effectively.

Massage and relaxation

Offering onsite employee massages has a positive effect on both the body and mind. Relaxation, balance, posture and flexibility, promoting healing, reducing tension and pain, are all preventative measures to reduce workplace stress, re-energise staff and improve productivity.

Our physical and mental well-being are very closely linked; massage can even help reduce high blood pressure and heart rate, relieve anxiety and improve sleep.

Introduce an employee wellbeing strategy

Helping your staff feel valued is to show you care about their health and wellbeing. Introducing a wellbeing strategy is paramount to cutting absenteeism and increasing productivity. Natural Beauty Clinic can help you to build a wellbeing programme and give you suggestions on how to achieve your goals.
