

Fascinator making workshop

Whether you are looking to learn a new skill or make one for that special occasion you will enjoy this workshop. Create and make your own fascinator using sinamay, feathers, veiling and other materials. You will learn how to form and sculpt delicate flowers using sinamay fabric, and create other flowers and trimmings. Learn how to prep a hair band or hair comb, create your design. Then apply them using hand sewing techniques to your sinamay base, hair comb or hair band.

This is a one day workshop and includes some materials. Please contact me about available sinamay colours.
