

ISEB Intermediate Software Testing

Duration: 4 days

Price: £850 + vat

ISEB Intermediate Software Testing Training is based on the ISEB syllabus. It extends the knowledge gained in the ISEB Foundation Certificate in Software Testing. This ISEB Intermediate Software Testing Training course prepares delegates for the multiple choice examination for the qualification. The ISEB Intermediate Software Testing Training course has five main parts: Testing Fundamentals; Reviews; Testing and Risk; Test Management; and Test Analysis.

Course Objectives:

The objectives of this course are:

- To prepare candidates for the examination for the ISEB Intermediate Certificate in Software Testing based on the ISEB syllabus
- To extend understanding of software testing – its application and management – its key disciplines – and to enhance awareness of issues and constraints around testing

The objectives of the ISEB Intermediate certificate are:

- To provide a sound basis for candidates intending to register for either the Practitioner in Test Management Examination or the Practitioner in Test Analysis Examination. The Intermediate Certificate is a pre-requisite for entry to either of these examinations
- To ensure that candidates for either of the Practitioner Certificate examinations have a broad understanding of the other specialist area
- To cover specific topic areas that both specialisations should understand

Audience:

A testing practitioner is anyone involved in software testing. This includes testers, test analysts, test engineers, test consultants, test managers, user acceptance testers, and software developers.

Key Points:

The ISEB Intermediate Software Testing course will cover the following aspects of practical test management:

- Testing Fundamentals
- Reviews
- Testing and Risk
- Test Management
- Test Analysis.

Course Format

This ISEB Intermediate Software Testing course is a three-day tutor led course using a mixture of slide presentation, lecture and practical exercises using scenario-based multiple choice questions. A revision session using scenario-based multiple choice questions and mock exam take place on the morning of day 4. The exam is sat on the afternoon of day 4.
