

MCA APPROVED SHIP SECURITY OFFICER (SSO) COURSE & ANTI-PIRACY MODULE

19th - 21st September 2011

Ocean Protection Services, Capital Place, 120 Bath Road, Heathrow, UB3 5AN
£495 inc VAT

Ocean Protection Services (OPS), one of the world leaders in prestige, reliable and flexible maritime security solutions have teamed up with security training provider Sentinel Training Operations (STO) to bring you an MCA Approved Ship Security Officer (SSO) Course with an additional Anti-Piracy module.

The course will run over 3 days at our prestige London Heathrow office and training facility and on completion of the course, students will be presented with a proficiency as Ship Security Officer (SSO) certificate.

The course will cover the following modules

The principles of international maritime security

The responsibilities of an SSO

Explore the International Ship and Port Facility Security (ISPS) Code

Understand the current threats against maritime vessels

Conduct an in-depth Ship Security Assessment (SSA)

Devising and maintaining Ship Security Plan (SSP)

Security administration

Anti-piracy weapons and countermeasures

Appreciate and understand the various security levels

Ship personnel with security duties

Conduct ship security and associated risk assessments

Implement effective search mechanisms and security controls

Threat, identification, recognition and response

Develop and maintain measures for controlled access to a vessel

After course completion the Ocean Protection Services recruitment team and senior directors will be conducting interviews with potential operators for upcoming and ongoing contracts.
