Certified ScrumMaster

Duration: 2 days

Price: £950 + vat

Prerequisites

This course will benefit anyone who may perform the role of ScrumMaster or is to be involved in a Scrum Team, in any of the Scrum roles. The course is also suitable for those acting as coaches or consultants in transitioning an organisation to Scrum.

The ScrumMaster is an important member of the Scrum framework. Their responsibilities include: Coaching the Scrum Team; maintaining effective Scrum Team dynamics; ensuring cross-functional collaborative working; removing impediments and outside interruptions to allow the Scrum Team to work without distractions.

The ScrumMaster Course includes a mixture of practical exercises, case studies and discussions which provides delegates with all the knowledge a ScrumMaster needs to run a successful Scrum Project.

At the end of the ScrumMaster Training Course, delegates will be designated Certified ScrumMaster (CSM). This is the first step towards becoming a Certified Scrum Practitioner (CSP). Certification provides delegates with two years' membership of the Scrum Alliance. Members received additional material and information just for Certified ScrumMasters.

Course Content
