No

Introduction

- Introductions
- Course overview & expectation

Course Programme

- PCP defined
- The ethos behind PCP - social inclusion & empowerment
- Values, beliefs, desires
- The role of support staff, friends & family
- MAPS & facilitation
- PATH & facilitation
- Portfolios

Person centred planning is a way of organising around one person to define and create a better future.

- Pete Richie

"bringing training to life"

This course is for staff who work in learning disability settings and therefore need a solid understanding of the principles and practice of person centred approaches.

Attending delegates will learn how PCP helps service users with disabilities plan and organise their future. The course will cover the ethos behind person centred planning and delegates will explore the tools that are used including MAPS and PATH.

Course Programme (continued)

- Essential lifestyle planning / one page profiles
- Commitments to action / preparation for change
- Access to PCP tools
- Further information on PCP
- Summary
- Evaluation

Extended Courses

This course can be extended to a full-day duration to look at person centred planning in greater detail including worked case studies.
