A Distance Learning Course is the ideal way to gain a qualification without having the worry of trying to fit your studies around your everyday life. You can complete your studies in your own time and we are on hand seven days a week to help you plan your future.

Course Description

If you want to develop your knowledge of Surveying in the Construction Industry so that you can embark on a rewarding career or maybe you are already working in a related field and want to improve your career prospects, then this is the course for you.

The Distance Learning BTEC Level 3 Advanced Certificate in Surveying course will help you gain a detailed understanding of this multi-national and multi-billion industry. Because this industry places so much importance on developing new building projects whilst controlling costs, that is why there is such a great demand for people with Surveying skills.

- This course will provide you with valuable hands-on experience which could lead to gainful employment as a professional in the Construction industry.
- You can study your Edexcel BTEC Level 3 Advanced Certificate in Surveying in your own time at home.

Please note: Edexcel registration fees are not included in the cost of the course. You will need to send your registration fee in within 28 days of enrolling on the course. Currently £90.00.

Previous Knowledge Required

You do not need any prior learning knowledge or experience to take this course. This course is openly available to anyone who wishes to take part in a highly rewarding home study course, although you would be expected to have a reasonable standard of literacy. You have the freedom to start the course at any time and continue your studies at your own pace for a period of up to 12 months from initial registration with the full support of your Tutor.

Support

You will receive the entire package of course materials in a single dispatch together with dedicated Tutor Support for 12 months. All assignments are marked by one of our professional Tutors who will offer regular feedback and guide you through your course. Postal assignments cannot be accepted without prior permission from the tutor and you must have access to email in order to contact your Tutor.

You will be provided with the telephone number for your dedicated Student Support Team who will be available for any other queries that you may have whilst completing your course. You can be assured that you will receive unlimited support for your home study course, so there is no need to struggle or feel isolated during your studies.

Assessment

The course contains a number of assignments which your tutor will mark and give you valuable feedback on. We call these Tutor Marked Assignments (TMAs). You need only send the TMAs to your tutor for comment, not the self-a

Modules

Health and Safety

- Understand the general and specific responsibilities both of employers and employees under current health, safety and welfare legislation.
- Be able to identify workplace hazards, persons who may be affected by such hazards, and the potential consequences of accidents.
- Know how to use risk assessments in appropriate formats.
- Be able to use workplace health and safety policies to recommend control measures, reduce risk and meet legal requirements.
- Understand own role in accident recording and reporting procedures.

Measuring, Estimating and Tendering Processes in Construction and the Built Environment.

- Be able to record dimensions and descriptions of construction work in a methodical way and process these into final quantities for varying purposes, e.g. bills of quantities, variations, final account, interim payments, claims, etc.
- Understand the purpose of estimating and the common techniques used to price construction work.
- Be able to calculate all-in costs of materials, labour and plant, together with unit rates, for a variety of construction work.
- Be able to derive approximate quantities and costs to determine the approximate value of building projects at varying pre-contract development design stages, and to understand the limitations on the accuracy that might be achieved.
- Understand the purpose of tendering, the common techniques used and the relevant documentation and explain the factors that can affect the level of tenders.

Surveying in Construction and Civil Engineering

- Understand surveying terminology and be able to use the equipment and instruments typically used to perform linear surveys, record the measurements in a standard form and produce drawings.
- Be able to use the equipment and instruments typically used to perform levelling surveys, record the measurements in a standard form and produce drawings.
- Be able to use the equipment and instruments typically used to measure angles, record the measurements in a standard form and produce results from calculations.
- Be able to perform the setting out of small buildings.

Awarding Organisation

Edexcel was formed in 1996 by the merger of the Business & Technology Education Council (BTEC), the country's leading provider of vocational qualifications, and the University of London Examinations & Assessment Council (ULEAC), one of the major exam boards for GCSEs and A levels.

In the UK, Edexcel work with more than 5,000 secondary schools, 450 further education colleges, 70 higher education institutions and more than 700 employers and training providers. As the company responsible for marking the national Key Stage 2 and 3 tests, they are also now working with 20,000 junior schools. Internationally, Edexcel operate in 112 countries and every year more than four million people trust their respected learning programmes and qualifications.

assessment exercises which are also part of the course to help you gauge your progress.
