### Brian L Tuttle

*CPHIT, CHP, CHA, CBRA, CISSP, CCNA*

Brian L Tuttle is a Certified Professional in Health IT (CPHIT), Certified HIPAA Professional (CHP), Certified HIPAA Administrator (CHA), Certified Business Resilience Auditor (CBRA), Certified Information Systems Security Professional (CISSP) with over 17 years' experience in Health IT and Compliance Consulting.

## Overview :

This lesson will be addressing how practice/business managers (or compliance offers) need to get their HIPAA house in order as HIPAA is now fully enforced and the government is not using kid gloves any more. It will also address major changes under the Omnibus Rule and any other applicable updates for 2018 and beyond. There are an enormous amount of issues and risks for covered entities and business associates these days.

I will speak on specific experiences from over 17 years of experience in working as an outsourced compliance auditor, expert witness on multiple HIPAA cases, and thoroughly explain how patients are now able to get cash remedies for wrongful disclosures of private health information. More importantly I will show you how to limit those risks

# Agenda:

## Day One

Lecture 1:
HIPAA Privacy Rule vs HIPAA Security Rule
HITECH Act

Lecture 2:
HIPAA - History
Information Technology
Breach Notification Rule

Lecture 3:
Omnibus Rule
Business Associates
Current Court Cases (precedence)

Lecture 4:
Paper Based PHI Concerns
Disaster Recovery Concerns (Paper)
Psych and Infectious Disease

### Why you should attend:

The HIPAA Omnibus Rule has changed the HIPAA landscape for good!

This once rarely enforced law has changed and you need to know what's going on!

What are the new roles and responsibilities for compliance officers?

Protect your practice or business!

These day's trial attorney's pose a higher risk than the Federal government!

State laws are now in place increasing liability for patient remedies!

What factors might spurn a lawsuit or a HIPAA audit? ...are you doing these things?

Why are the Feds enforcing after all these years?

## Day Two

Lecture 1:
BYOD
Texting and Emailing
Choosing a HIPAA Consultant

Lecture 2:
Choosing an IT Group
Disaster Recovery Concerns (Electronic)
Physical Setup

Lecture 3:
Overseas Outsourcing
What the Feds are Looking For (low hanging fruit)
What are Factors That Can Get Your Practice Audited

Lecture 4:
State Laws and Patient Ability to Sue
How to Conduct a Risk Assessment

### Areas Covered in the Session:

- History of HIPAA
- HITECH
- HIPAA Final Omnibus Rule
- HIPAA Changes for 2018
- How to perform a HIPAA Security Risk Assessment
- What is involved in a Federal audit and how is it Conducted
- Risk factors for a federal audit
- EHR and HIPAA
- Business Continuity/Disaster Recovery Planning
- Business Associates and HIPAA
- In depth discussions on IT down to the nuts and bolts
- BYOD
- Risk factors that can cause an audit (low hanging fruit)
